This is not your mother's one-piece.

The hot new maillots are sexy, fresh, and slimming.

## You're the One-Piece That I Want

More body-friendly than bikinis, one-piece suits—or maillots (from the French word for *knits*)—are making a comeback. They let you bare where you're toned and cover where you're questionable. In gorgeous prints and colors like these, they can double as a bodysuit for linen pants or a full skirt.

Trim your sails—and your shape—with a nautical belted swimsuit from a line pegged to five common body types. Lori Coulter TrueMeasure, \$195.
